OBSA TESFAYE DEMESA

Full-Stack Developer (MERN) | Computer Science Student | Graphics Designer

Haramaya University · 4th Year · Class of 2026/27

ABOUT ME

Motivated and patient Full-Stack Developer and Computer Science student at Haramaya University with practical experience in web development, graphics design, and software projects. Skilled in building responsive web applications using the MERN stack (MongoDB, Express, React, Node.js), REST APIs, JWT authentication, and database design. Also experienced in Adobe Photoshop and Illustrator for graphic design work. Passionate about learning new technologies, solving real problems, and creating modern digital solutions. Currently seeking opportunities to apply and grow skills professionally.

WORK EXPERIENCE

Full-Stack Developer Intern — OICT Training & Consultancy Solutions PLC

Internship | Backend Focus | Addis Ababa, Ethiopia | Jul 2026 – Aug 2026

- Designed and implemented RESTful APIs using Node.js and Express for the OICT TechStore e-commerce platform, handling product listings, cart management, and order processing.
- Built and structured a MongoDB database with Mongoose schemas for users, products, orders, and categories.
- Implemented JWT-based authentication and bcrypt password hashing, securing all protected routes.
- Deployed the application to a cloud server and set up a production-ready Express server.

Student Management System

Web Application | Academic Project | 2024

- Built a full-stack web system to manage student records, grades, attendance, and reports.
- Developed using PHP, MySQL, HTML/CSS and JavaScript with role-based access for admins, teachers, and students.

Online Examination System

Web Application | Academic Project | 2025

- Developed a timed online exam platform with auto-grading and result reporting for instructors and students.

PROJECTS

WQG Church Platform

MERN Stack · React, Node.js, Express, MongoDB, Tailwind CSS · 2026

Comprehensive platform for managing church members, tracking mobile payment submissions, organizing multilingual programs, and streaming gospel media.

🔗 Live 🐙 GitHub

OICT TechStore

MERN Stack · React, Node.js, Express, MongoDB, JWT · 2026

Full-stack e-commerce platform with product browsing, cart management, user authentication, and admin inventory management.

🐙 GitHub

Developer Portfolio

MERN Stack · React, Vite, Node.js, MongoDB, Tailwind CSS · 2026

Production-ready personal portfolio with dark/light themes, AI chat widget, admin dashboard, and full REST API.

🐙 GitHub

CERTIFICATIONS & ACHIEVEMENTS

Competitive Programming using Python — 15-Day Online Course
HUCISA · Haramaya University, College of Computing and Informatics
April 26, 2025

Data Analysis Fundamentals — Nanodegree Program
Udacity · Part of Accenture
August 22, 2025
🔗 Verify Certificate

CE102: SS5 — How to Evaluate Resources
e-SHE · Ministry of Education, Ethiopia
Verified Certificate of Achievement

OICT Internship Completion Certificate
OICT Training & Consultancy Solutions PLC
August 2026

EDUCATION

Bachelor of Science in Computer Science
Haramaya University · Expected Graduation: 2026/2027

College of Computing and Informatics · Currently in 4th year of a 4-year B.Sc. program
Actively engaged in practical projects beyond the curriculum
